EDUCATION

Cardinal Carter Catholic High School Aurora, ON | *Expected Graduation: 2027*

- IB Diploma Candidate
- IB Higher Level: Mathematics AA, Chemistry, English
- IB Standard Level: Physics, Economics, French B
- AP Computer Science A · Grade 11 Computer Science

HACKATHONS

SproutHacks Top 5 Finish

- Built a Chrome extension that fact-checks web page content in real time using an LLM to cross-examine claims against live search results
- Designed a Pinocchio-themed UI where a nose dynamically grows/shrinks to represent source reliability, distinctive branding that outcompeted a rival fact-checking extension in the same event
- Built an accompanying centralized web app aggregating anonymized reports from all users, surfacing public reliability trends across websites at scale

Stack: JavaScript, Chrome Extensions API, LLM integration, full-stack web

EurekaHacks

- Solo-built an iOS app that detects heart rate using only the device's flashlight and camera, analyzing color hue variations in the fingertip to produce a live EMG-style pulse graph
- Demonstrated real-time physiological signal processing with zero external hardware

Stack: Swift, iOS AVFoundation, signal processing

PROJECTS

DECA Chapter Platform Full-Stack Web App

- Built a full internal platform for the school DECA chapter from scratch, actively used by members
- Features member login, practice exams and case studies, exec management panel, automated onboarding, and a real-time partner matching system that prevents duplicate pairings
- Eliminated manual sign-up and partner coordination entirely for the chapter

Mac Memory Editor Systems Programming

- Built a terminal-based process memory editor for macOS, similar in concept to Cheat Engine, reads and writes values to running process memory at runtime

Stack: C++

Blockchain from Scratch

- Implemented a functional blockchain with mining, block validation, ledger management, and simultaneous node simulation, built to understand the mechanics from the ground up

Stack: Python

PROGRAMS & EXPERIENCE

University of Toronto, DEEP Summer Program

- Completed U of T's Deep Summer program; gained hands-on exposure to ML concepts, cybersecurity, and UX design.

LEADERSHIP & EXTRACURRICULARS

DECA Executive Member | *Cardinal Carter Catholic High School*

- Built and maintain the chapter's internal web platform (see Projects above)
- Coordinate member onboarding, event registration, and partner matching

Robotics Club Vice President | *Cardinal Carter Catholic High School*

School & Concert Band Trombonist

- Active member of school band; also performs outside of school

OVA Volleyball Competitive (Rep) Athlete

- Competes in the Ontario Volleyball Association; team has earned several medals this season

TECHNICAL SKILLS

Languages: Java, C++, Python, JavaScript

Tools & Frameworks: GitHub, Chrome Extensions API, iOS development, web frameworks

Areas: LLM integration, signal processing, full-stack web development, systems programming, blockchain, deep learning (foundations)
